

# Country Cluster Overview - Feature Selection Overview

(Safe/Dangerous countries as determined by K-means clustering classification)

Murders (per 100k)

Assault on Women (Lifetime abuse rate)

Children Mortality Ages 5-14

Crime Index

## "Safe"

country

**38.59**

Crime Index

**2.02**

Average Homicides

**1.39**

Average Child Mortality

**23.26**

Average % Women Lifetime Abuse

## "Unsafe"

country

**64.11**

Crime Index

**25.21**

Average Homicides

**30.43**

Average Child Mortality

**6.88**

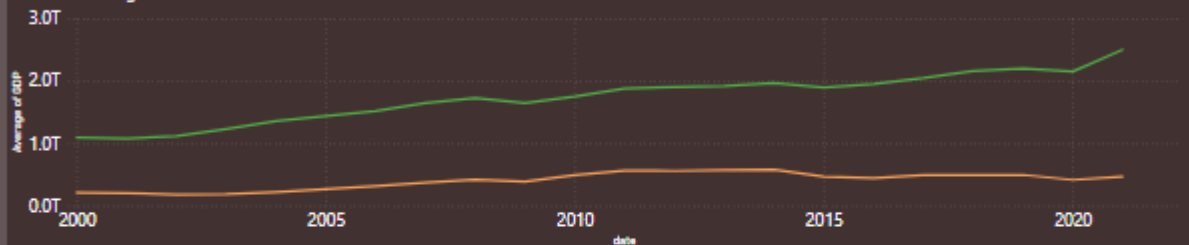

Average % Women Lifetime Abuse

# Country Cluster Overview - Segment Insights

(Safe/Less Safe countries as determined by K-means clustering classification)

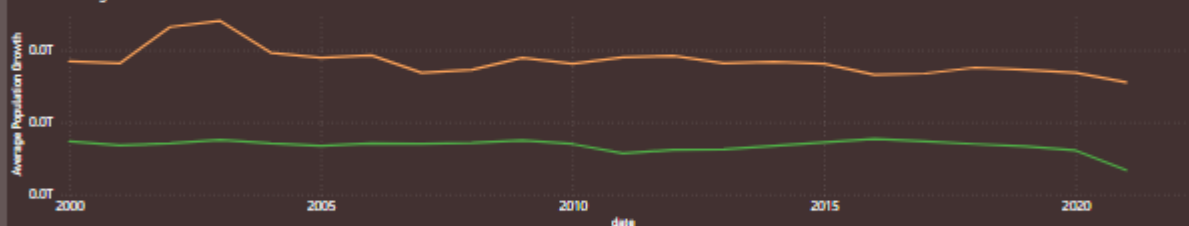

## Average of GDP by date and clusters

clusters ● Dangerous ● Safe

## Average Population Growth by date and clusters

clusters ● Dangerous ● Safe

### "Safe"

7.44

Schooling (Years)

7.71

Homosexuality

77.09

Business Freedom

77.04

Water Quality

10.00

Food Insecurity

66.95

Tax Burden

### "Less Safe"

11.29

Schooling (Years)

4.89

Homosexuality

57.60

Business Freedom

31.67

Water Quality

44.12

Food Insecurity

74.45

Tax Burden

# Country Cluster Overview - Country Comparisons

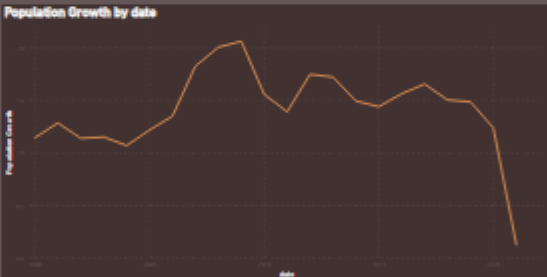

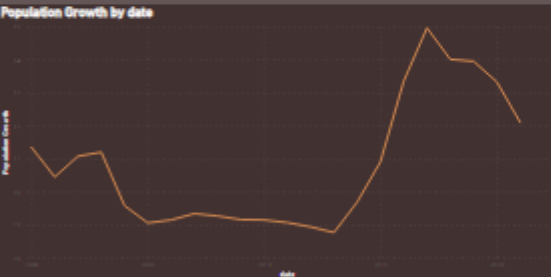

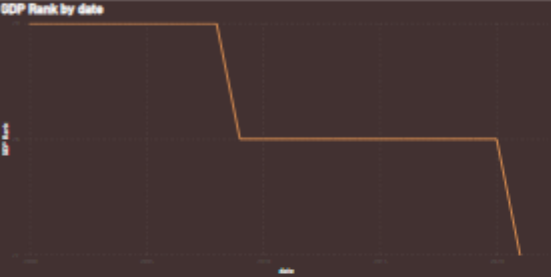

(Safe/Dangerous countries as determined by K-means clustering classification)

cluster:  
Dangerous
